

Variable Frequency Drives Program Guidelines 2014

Sponsored By:

Nebraska Public Power District

"Always there when you need us"

And its Participating Wholesale Utility Customers

Variable Frequency Drive Incentive Program

Program Guidelines

1. Available to industrial and large commercial customers of Nebraska Public Power District and its wholesale utilities' customers
2. Application must be completed to receive an incentive
3. Application must be accompanied by proof of purchase that itemizes the new equipment indicating the type, make, model, size, and purchase date.
4. Program is limited to drives from 1 to 200 horsepower.
5. The equipment must operate at a minimum of 2000 hours annually.
6. Incentives will not be offered to replace existing VFD's or for single phase service. The system controlled must have significant load diversity that will result in savings through motor speed variation. VFD speed must be automatically controlled. VFD must control centrifugal fans or pumps. New construction HVAC pumps and fans are ineligible. It is highly recommended to install protective equipment to maintain VFD reliability.
7. Incentives exceeding \$5,000 require approval by the electric utility before purchase or installation.
8. Program is subject to the Terms and Conditions as outlined on the application and to the General Guidelines.
9. For program specific questions, contact Kenneth Young at kdyoung@nppd.com or 402.563.5084.
