

Electricity Bill Factors

NPPD's base rate is made up of two main charges...

1. **Customer Charge** - includes the meter and electricity service.
2. **Energy Charge** - the amount of electricity used. The energy charge covers costs incurred from the point of generation through delivery.

Rates are charged on a kilowatt-hour (kWh) basis and vary by season.

NPPD's Summer Rate applies to the customer's prorated electrical use from June 1-Sept. 30.

NPPD's Winter Rate applies to the customer's prorated electrical use from Oct. 1-May 31.

Additional Components

In addition to NPPD's Base Rate, the cost of service for most customers also includes a lease payment and a gross revenue tax. All bills are subject to the Retail Production Cost Adjustment, or PCA.

Lease payments apply to customers who are served from distribution facilities leased by NPPD from a community. Customers who are served from distribution facilities for which the District has a lease payment obligation has their basic rates (including applicable primary service discount and power factor adjustment) adjusted to include these costs.

The gross revenue tax payment applies to customers located within the municipal limits. The gross revenue tax is required by Nebraska statutes. Customers who are located within municipal limits has their basic rates (including applicable primary service discount, power factor adjustment and lease payment credit adjustment) adjusted to include this tax.

Standard Electric Rates

▼
Residential
Small Commercial
Large Commercial

Residential Service

(homes)

Residential Service rates are applicable to single-family residences, individually-metered apartments and rural residences for domestic purposes, when all service is supplied through a single meter.

Residential Service Base Rate:

■ **Customer Charge -** \$20.75/month

■ **Energy Charge -**

Summer	Winter	
10.36¢	8.37¢	per kilowatt-hour (kWh) for the first 750 kWhs used per month.
10.36¢	6.22¢	per kWh for all additional use

Additional Components:

See explanation about additional bill components under **Electricity Bill Factors** on back panel.

General Service

(small commercial)

General Service rates are applicable to commercial and non-residential establishments for lighting, heating and power purposes, where all service is taken through a single meter at one location. A customer shall have the option of being billed under the **General Service Demand** rate, if eligible.

General Service Base Rate:

■ **Customer Charge -**

Single-phase service.....	\$26.75/month
Three-phase service	\$37.25/month

■ **Energy Charge -**

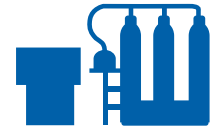

Summer	Winter	
10.35¢	7.78¢	per kWh for the first 1,000 kWhs used each month.
10.35¢	7.78¢	per kWh for all additional use

Additional Components:

See explanation about additional bill components under **Electricity Bill Factors** on back panel.

General Service Demand

(large commercial)

General Service Demand rates are applicable to commercial and industrial customers with peak demands of 100 kilowatts (kW) or more in any two summer months or 200 kW or more in any two months of a 12-consecutive-month period, whose entire requirements are taken through a single meter at one location through one transformation.

However, any commercial customer with a load greater than 250 kWhs per kW and either a demand greater than 50 kW or monthly consumption greater than 15,000 kWh during any three months of a 12-month period shall have the option of billing under this schedule.

General Service Demand Base Rate:

■ **Customer Charge -**

Single-phase service	\$105.00/month
Three-phase service	\$135.00/month

■ **Energy Charge -**

Summer	Winter	
12.57¢	9.44¢	per kWh for the first 200 kWhs (per kW of billing demand)
4.65¢	3.67¢	per kWh for all additional use

Additional Components:

See explanation about additional bill components under **Electricity Bill Factors** on back panel.

About NPPD...

Nebraska Public Power District employees are dedicated to safely generating and delivering low-cost, reliable energy while providing outstanding customer service. Our goal is to be *“Always there when you need us.”*

As a political subdivision of the State of Nebraska, NPPD is categorized as a “public power” utility. This means we provide electric power to you at cost, without making a profit. We do not have stockholders and do not pay dividends. You own and control NPPD by electing a representative to the NPPD Board of Directors. These board members are responsible for setting the rates as described in this brochure.
