

ELKHORN RIDGE WIND ENERGY PROJECT

Bloomfield, Nebraska

Project Quick Facts:

- **Location:** Bloomfield, Nebraska (Knox County)
- **Size:** 81 Megawatts (enough electricity to serve approx. 25,000 homes)
- **Turbines:** 27 (Vestas / V-90 / 3.0 MW / 410 feet from base to blade tip)
- **Developer:** Midwest Wind
- **Owner:** Edison Mission Group (Irvine, CA), Tenaska (33%)
- **Power Purchaser:** Nebraska Public Power District (NPPD)

EDISON MISSION GROUP

Edison Mission Group (EMG) is one of the nation's leading owners and operators of competitive electric power generation. EMG owns and operates 44 power generating facilities in 14 states that sell more than 10,000 megawatts of electricity into competitive, wholesale markets and to utilities.

Active in developing wind energy for 10 years, EMG currently has 25 wind projects totaling almost 1,200 megawatts of capacity in operation or under construction and an additional wind development pipeline of approximately 5,000 megawatts.
